Results:

Model	Train AUC	Validation AUC	Test AUC
Logistic Regression with Selected features	0.756	0.747	0.753
Random Forest with Selected features	0.841	0.751	0.751
LightGBM with Selected features	**0.861**	**0.781**	**0.787**

LightGBM gives the best performance and it is also faster to train when compared to Xgboost.
